PRESS RELEASE

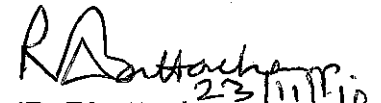

French Delegation visits Atomic Energy Regulatory Board

A five member delegation of ASN, the French Nuclear and Radiation Regulatory Organization and IRSN, the French Institute for Radiological Protection and Nuclear Safety, led by Mr. Olivier Gupta, Deputy Director General, ASN visited the Atomic Energy Regulatory Board (AERB) during November 22-23, 2010. This visit was under the Nuclear Safety Co-operation Agreement between the two organizations that was signed in July 1999. During the visit, a seminar on "European Pressurized Reactors" was organized involving the topics on review of EPRs, Break Preclusion Concept (BPC) in EPR, Seismic Design etc. were discussed.

Large number of scientists and engineers from AERB, NPCIL, BARC and IGCAR participated in the seminar. The presentations and discussions held in the seminar led to a better appreciation of regulatory practices and safety review approach.

A kick-off meeting was also held between Shri S.S. Bajaj, Chairman, AERB, Senior AERB officials and French delegation where topics for future cooperation between AERB and ASN were identified.

The previous seminar under this information exchange programme was held during May 27 - 29, 2008 in Mumbai.
