e-Licensing of Radiation Application (eLORA) launched by AERB for Radiotherapy facilities on 12/08/2013

AERB has launched e-Licensing of Radiation Application (eLORA) for radiotherapy facilities on 12/08/2013. The System provides for online submission of all licensing applications to AERB for radiotherapy facilities. While new facilities will interact with AERB through eLORA only, the existing facilities are being switched to eLORA in a phased manner and accordingly, the LOGIN credentials are being communicated to all Radiotherapy Facilities in the Country.
