He visited various facilities at VECC, Kolkata. During his visit he interacted with the officials of VECC at K-130 Cyclotron, Super Conducting Cyclotron (SCC), Radioactive Ion Beam (RIB) Project and Department of Atomic Energy (DAE) Medical Cyclotron Project at Chackgaria which is under commissioning stage.

Chairman, AERB visiting DAE Medical Cyclotron, Kolkata on November 7, 2019

He delivered a Lecture on “Pursuit of AERB for safe use of Radiation for societal benefit” at Ajai Divatia Lecture Hall, VECC on November 8, 2019 & interacted with various staffs of VECC. He mentioned that in the endeavour for ensuring safety, it is of immense importance that all of us the regulators, the facility owners, the operators and other stakeholders understand and appreciate their respective roles and responsibilities well. That will help us in addressing the special challenges involved in ensuring nuclear, radiological, fire and industrial Safety in the facilities, towards achieving the goal of high standards of productivity and protection of people and the environment.
