SURPRISE REGULATORY INSPECTIONS CONDUCTED BY AERB

Recently, AERB conducted surprise regulatory inspection and sealed two industrial radiography devices at Agra and two industrial radiography devices at Rajkot (belonging to two Gujrat based radiography facilities) due to storage/use at unapproved sites.

In view of the above, all the industrial radiography institutions are directed to comply with the regulatory requirements. Any discrepancy with regard to location of radiography devices vis-à-vis eLORA information, similar action will be initiated. It may kindly be noted that AERB is planning to conduct many surprise regulatory inspections in future.

(P. K. Dash Sharma)
