

AERB and USNRC bilateral meeting held at Rockville, Maryland, USA during January 27-30, 2020.

The bilateral meeting between Atomic Energy Regulatory Board (AERB) and United States Nuclear Regulatory Commission (USNRC) was held during January 27-30, 2020 at NRC's Headquarters at Rockville, Maryland USA. A four member delegation from AERB participated in the meeting. The mutual technical discussions and sharing of information took place in the areas of emergency preparedness and response in nuclear power plants, licensing approaches for new nuclear reactors, latest development in materials and component integrity research, regulation of radiotherapy facilities for cancer treatment and management of disused sealed radioactive sources.

USNRC also organized technical visits to their nuclear and radiation facilities.

AERB and USNRC jointly identified future collaborative activities for mutual benefits.
