

Virtual meeting between AERB and IRSN

AERB has bilateral co-operation arrangement with IRSN, a Technical Support Organization of France. A virtual meeting between AERB and IRSN was held on April 07, 2022 wherein experts from both the sides participated. The technical discussion primarily focused on severe accident studies, long term operation studies of nuclear power plants, Digital I&C systems and Small Modular Reactor technologies. The meeting was mutually interesting and beneficial. AERB and IRSN decided to carry forward the interactions further in the areas of mutual interest.
