

AERB participated in the 4th Varian Oncology Summit held at New Delhi during August 3-4, 2018.

Atomic Energy Regulatory Board (AERB) participated in the 4th Varian Oncology Summit held at New Delhi during August 3-4, 2018. Varian Medical System organised the summit. Shri S.A. Bhardwaj, Chairman, AERB delivered keynote address in the summit. He emphasised the responsibility of the clinicians to justify and optimise medical exposures. He expressed that AERB is committed to improve the lack of awareness among various radiation workers w.r.t. radiation safety.

During the summit there were deliberations about the various high-end treatments and the challenges faced in executing such treatments, which include stereotactic body radiation therapy, hyper-arc radiation therapy, adaptive radiation therapy, motion management, networking, artificial intelligence etc.

Dr. P. K. Dash Sharma, Head, Radiological Safety Division, AERB participated in the panel discussion on topic “Radiation Oncology System for T2 & T3 Centres and Beyond”.
