

AERB renews information exchange arrangement with United States NRC

The Atomic Energy Regulatory Board (AERB) has renewed the bilateral arrangement with the United States Nuclear Regulatory Commission (USNRC) for the exchange of technical information and cooperation in nuclear safety and radiation protection matters. The arrangement was signed through postal exchanges by USNRC Chairman Mr. Christopher T. Hanson on October 31, 2024, and AERB Chairman, Mr. Dinesh Kumar Shukla on November 18, 2024. It aims to enhance collaboration between the two regulatory bodies, focusing on information sharing, training of regulatory personnel, and joint research programs in nuclear safety. The arrangement shall remain valid for a period of five years.
