

KENYA DELEGATION VISIT TO ATOMIC ENERGY REGULATORY BOARD

A three member Kenyan delegation, consisting of Mr. Joseph Maina, CEO, Kenyan Nuclear Regulatory Authority and Dr. Loise Nyanjau and Dr. Ruth Muia from Ministry of Health of Kenya, visited AERB on 3rd May 2022 to understand the regulatory framework governing Radio-therapy and diagnosis, the scope of regulatory activities at AERB and methodologies adopted in the regulation of Radiotherapy and diagnostic equipment.

The delegation interacted with Chairman AERB and Executive Director, AERB.

The Kenyan delegation was briefed by Head, Radiological Safety Division and other AERB officials, about the methodology adopted in regulating the radiation generating equipment and radioactive sources used in medicine.

The delegation was apprised about the licensing process in AERB for radiation applications in medicine and industry, using the e-governance portal, e-Licensing of Radiation Applications (e-LORA).

Kenyan delegation with Shri C. S. Varghese, Executive Director, AERB, Dr. P. K. DashSharma, Head, RSD, AERB and other AERB officials
